

Hello and Welcome to Phi Chi Theta!

My name is Hadyn Gordon and I serve as the Director of Membership for Phi Chi Theta. I'm a sophomore studying Finance from Metro Detroit. Last summer I interned in Investment Management at Waldron Private Wealth in Pittsburgh, and this upcoming summer I will participate in the Girls Who Invest Intensive Program. Before stepping into this role I served as a Pledge Success Mentor, supporting new members through their first semester.

I share that to give context and highlight how much PCT has shaped my college experience. This fraternity has pushed me professionally and personally. I learned how to navigate networking, interviews, and professional etiquette. I learned how to ask for help, how to collaborate, and how to present myself with confidence. A lot of that would have been overwhelming on my own, but PCT made it accessible.

The community is what stands out most. When you join PCT you instantly gain a network of 100+ people in your corner. If you need interview prep, resume help, or advice about a major or internship path, someone here has done it and is more than willing to walk you through it. If you are interested in joining another club or organization on campus, there is almost always a member in it who is willing to help you. We are a launchpad for wherever you want to go, whether that is a specific career, a leadership position, or simply wanting to make an impact during your time at MSU.

Beyond professional development we do a lot together. We host monthly social and service events, we take an annual ski trip Up North in early spring, and we travel together on our fall professional roadshow in Chicago. It makes a large university feel small, gives you a group you want to be around and want to be like. Some of my favorite moments are when I walk into Broad and immediately recognize 5-10 people I can talk to, sit next to, or study with.

If you are considering rushing, I encourage you to explore it. We do not look for a certain year or a certain major. We look for motivated, curious, and authentic people who want to grow. The skills, exposure, and support you get here apply to every field and every class year.

I'm beyond excited for my role this year. As Director of Membership I lead the entire rush process and then work closely with our new member class throughout their onboarding semester. This means weekly workshops, helping them all transition into the organization, and making sure everyone has the support and opportunities they need. It is a privilege to help shape the next class and to continue the same supportive experience that was given to me.

If you have any questions about rush or want to talk about PCT, please reach out.

See you soon,

Hadyn Gordon (She/Her)
